

**RTW  
Concrete Construction, Inc.**

I \_\_\_\_\_, hereafter known as the customer, understand that the process of stamping and coloring concrete is an artistic form and therefore may have some variations in color and texture. Variations can be expected due to differences in cement, aggregate, weather, sand, temperature, humidity, and light sources. I also understand that by signing this document I agree that I have chosen the color and pattern listed below. I accept and understand that variations in color or texture are a part of the artistic procedure being performed on my property. All colors and patterns shown on the charts are for representation only.

Stamped concrete can be slippery so we add a non skid product to the sealer to help reduce this problem. We are taking this opportunity to pre-warn you as to the nature of this product for your safety, you should always walk around the pool area. By signing this you understand R.T.W. will not be held responsible or liable for injuries resulting from these possible areas, including the entire pool area. By signing this document I AM AUTHORIZING R.T.W. to perform concrete work on the property listed below.
