Dear Randall:

I wanted to thank you again for the excellent job you did on my textured concrete patio. It looks great! More importantly I want to let you know how much I appreciated your follow up to get the job done right. You were referred to me by a good friend and he told me that I could count on a quality job. It was unfortunate that we had some problems with the sealer. When I called you, you told me that you would stand behind the work and reseal or refinish it to my satisfaction, and offered to totally redo the job if necessary. The solution that you researched and recommended turned out great, and both my wife and I are totally satisfied. Please feel free to use me as a reference in the future.

Sincerely,

Kevin A. Teston
